

Temporary Restrictions on Importation of Citrus Fruit Crops from the Islamic Republic of Pakistan to the Russian Federation Has Been Lifted

The Rosselkhoznadzor informs of the fact that since December 9, 2013, temporary restrictions on importation of citrus fruit crops from the Islamic Republic of Pakistan to the Russian Federation (Code in the Foreign Trade Goods Classification of the Customs Union 0805) are to be lifted in case of their compliance with the international and Russian phytosanitary requirements.

Therewith, it is reported that the issue of lifting temporary restrictions on the rest of high phytosanitary risk products (rice, potato, etc.) can be considered by the Rosselkhoznadzor as soon as it receives from the Pakistan party previously requested information on measures taken in order to provide phytosanitary safety of the products and as soon as findings on their efficiency are given by the Rosselkhoznadzor experts in the sites of the product manufacturing and dispatch.
