

Extra Virgin Olive Oil Wholesale Prices in Europe in December

Despite the massive shift of Italian importers in the Greek markets extend the harvest in Greece has increased the supply which is not allowed and this year's blockbuster, the need for liquidity and the limited storage capacity of olive mills – then the expected further upward tension price despite the astronomical prices in Italy. Note that in Spain the week was marked by a stagnation of prices.

Price Trend: 49th week. 2014 (07 December 2014)
