

## **Rotterdam port wants to receive Spanish exports**

The Council for the promotion of the port of Rotterdam is organising a business seminar in Madrid on Wednesday, 21 October, in close partnership with the Embassy of the Kingdom of the Netherlands and the Port Authority of Rotterdam. The event will take place at The Westin Palace Madrid.

The Port Authority of Rotterdam is promoting this city as the gateway to northern Europe for all Spanish goods, including fruits and vegetables.

The goal is to inform carriers, freight forwarders and logistics providers about the advantages offered by the port of Rotterdam for their imports and exports, such as the latest developments at the port and the multiple connections with Spain.

After the seminar, a meeting will be held for professional exchange among attendees, where they will have the opportunity to meet members of the business community in Rotterdam. The meeting will be held at the Port of Rotterdam Logistics Business Plaza.
