

Jordan exports 900 tonnes of fruit, veg daily to Gulf states

According to Agriculture Ministry Spokesperson, Nimer Haddadin, Jordan is exporting 900 tonnes of fruits and vegetables daily to Gulf countries, which is a rapid increase since the beginning of this year, compared to the same period in 2014. 50 refrigerated trucks carrying the 900 tonnes of fresh produce leave for the Gulf states each day.

A total of 500 tonnes of fresh tomatoes alone are exported daily to the Gulf countries, reports Haddadin.

Exporting such quantities has a positive effect on farmers who are able to easily sell their products, mainly tomatoes, he added.
