

France: New addition in tomato collection

A new collection has been added in the "Azura Collection". In 2015 the company launched this range of "little tomatoes with big flavor!"

The new addition n°6 is a little mix of colored tomatoes. "It is an assortment of tomatoes based on the best varieties of the season. Each punnet of 6 tomatoes is an original offer blending shapes, colors, flavors and textures. The mix is composed of red, pink, black, yellow and orange tomatoes," explained Odile Lavail from Azura.

Already known in the collection are:

- Azura Collection's n°14, a cherry tomato that is naturally sweet, slightly acidic and crunchy with a bright red color.
- Azura Collection's n°26, a baby plum tomato very aromatic.
- Azura Collection's n°8, a round tomato with a small caliber that is naturally sweet and juicy with intense color.
