

## Ukraine Jan-Sep 2018: Tomato exports down 29%

In the period from January to September 2018, Ukraine exported 10,710 tons of tomatoes worth US\$ 7.98 million, which is 29% less than over the corresponding period the year before. The State Fiscal Service of Ukraine reported on the key importers of Ukrainian tomatoes:

- Belarus — \$ 5.51 million (7.390 tons)
- Poland — \$ 1.58 million (1.790 tons)
- Latvia — \$ 213,000 (285 tons)

Blackseagrains.net reports on the same period, from January to August 2018, where the turnover for agricultural products between Ukraine and the EU countries reached \$5.4 billion, which is a \$330 million rise year-on-year.
